

Holcim Aggregates

Dear Valued Customer,

We find ourselves in unprecedented times that have seen us impacted by significant input cost pressures. As a result, we are making some changes to our pricing and we wanted to let you know as soon as possible.

Effective from the 1st April 2026:

- **A Production Cost Surcharge will be applied on all quarry products at a rate of \$1.01 per tonne.**
- **A Transport Cost Surcharge will be applied at a rate of \$1.52 per tonne for all deliveries starting the same date.**

Invoicing: The surcharges will be clearly displayed as a separate line item on your standard invoice.

Monthly Review: Given that we expect input costs to continue fluctuating in the near term, the surcharges will be reviewed monthly to assess any changes that may be necessary.

We believe it's important that you are aware of these changes now to allow you the opportunity to factor them into your future pricing.

Need more information?

Should you have any questions please contact your Account Manager.

On behalf of Holcim, I would like to thank you for your ongoing support. We look forward to continuing to work with you and your business.

Yours sincerely,

Scott Buchanan
Executive General Manager (EGM) - Aggregates
