

East Perth Concrete Community Update

October 2016

Holcim (Australia) Pty Ltd

Purpose of this information sheet

Holcim recognises that genuine partnerships with stakeholders, particularly within the communities that we operate, are not only essential to business success but ensure Holcim remain a good neighbour and corporate citizen. Holcim is committed to working towards a sustainable future in partnership with our local communities and is therefore committed to strengthening existing and forming new relationships within the Claisebrook Road North Precinct.

This information sheet has been developed to initiate a transparent dialogue between Holcim and residents of the Claisebrook Road North Precinct. We would like to hear from you and encourage you to complete the community feedback form at page 2 of this update.

Yagan Square

Who is Holcim?

Holcim Australia is one of the country's leading producers and suppliers of construction materials such as concrete and quarry products. Many of Australia's most iconic landmarks have been built using our products, such as Australia's Parliament House in Canberra and more locally, Perth Busport, Elizabeth Quay and Yagan Square.

The company has been serving the Australian construction industry since 1901, originally under the well-known brands Readymix, CSR and Humes. Today Holcim Australia has a network of over 200 concrete plants and 88 quarries. Holcim (through CSR) has been located on the existing Claisebrook Road site for 100 years with the concrete plant itself commencing operations at Claisebrook Road in 1986.

Update from our East Perth Team

- There are 18 drivers and 5 operational personnel based out of Holcim's East Perth Concrete Plant.
- Holcim plans to redevelop the Caversham Road streetscape in early 2017. Redevelopment will include replacing the old fence with new a new colourbond fence, placing new lawn and installing a reticulation system. This will significantly improve the Caversham Road streetscape appearance.
- In September, Holcim's Perth concrete business upgraded the GPS units in Holcim trucks. The new units provide detailed information on location, speed and driver behaviour.
- Holcim's East Perth Concrete Plant is currently supplying major inner city projects including Yagan Square, Charles Street Bridge and Ritz Carlton Piling at Elizabeth Quay.
- In October, Holcim's State Office recently relocated from Bentley to 200 Adelaide Terrace, East Perth.
