

Community Investment Fund Application Form

Lynwood Quarry

2020

1. Overview

The Community Investment Fund dedicated to the Marulan and surrounding communities is designed to help improve the quality of life of the members of our workforce, their families and the communities. We value local needs, promote community involvement and partner with local stakeholders around our operations. Holcim has dedicated funding and co-contributions to improve economic, cultural and social development throughout the region. In addition as a part of the community we encourage and support our employees' engagement in volunteering and local community work.

2. Contact

If you have any questions regarding the fund, please contact the Environment and Community Liaison on 1300 657 051 or lynwoodcif-aush@holcim.com

Please briefly describe the project (What are you planning to do)

Please briefly describe the project objectives: (what will the project achieve)

Please briefly outline the milestones that will lead to project completion. Please ensure dates are included for each milestone.

Milestone 1:

Milestone 2:

Milestone 3:

Milestone 4:

(Add milestones as required)

Criteria for applications

Please provide information detailing how the project addresses the following criteria. Please insert additional lines if required. **Note – Projects are assessed on the applicants responses to the below criteria. Not providing adequate information reduces the chances of a successful project.**

CR1: The project must address at least one of the following criteria but can also address multiple. Please provide specific detail on how the project addresses the criteria pertinent to the project.

Providing education for society's future includes projects related to educational activities for the wider community.

Supporting sustainable community development includes projects related to community development activities in collaboration with local community members and often NGOs – these include projects/activities raising the quality of life and building capacity for less privileged community members.

Building infrastructure for liveable communities includes all spending related to the provision of liveable communities and promotion of civic engagement such as housing, transportation, sanitation, roads, bridges, canals, and recreation for community members.

CR2: Support the sustainability of social, environmental and/or economic diversity, expansion or resilience of the region.

CR3: Create opportunities for Holcim to actively be involved and help promote the project/activity.

In addition:

CR4a: For submissions greater than \$2 000 please detail applications for any other funds or contributions from other organisations (including government and non-government) or community members.

CR4b: For submissions greater than \$5 000 please also discuss the improved social, cultural or environmental outcomes expected.

Detailed Budget

Please provide a budget in the below table for all aspects of the project.

Item	Cost	Qty	Total	Holcim		Other	
				Cash	In-kind	Cash	In-kind
<i>Example:</i> Star pickets	\$1.85	50	\$92.50	\$50.00	0	\$42.50	0
Total							

Budget explanation

Please provide any explanation required to provide sufficient details regarding the budget. This should include details of non Holcim in-kind and cash contribution and whether they are already secured.

Other information

Please explain in detail how the project will promote Holcim and our contribution to the project:

Please provide any information pertinent to return on investment considerations or value for money:

Please include any other information pertinent to the project:
